What Is the Census Information Center (CIC) Program

The CIC Program is the community-based component of the Census Bureau's Data Dissemination Network. While census data are readily available on the Census Bureau's Web site, in our 12 permanent Regional Offices, 1,400 Federal Depository Libraries, and 1,800 state and local government agencies participating in the State Data Center Program, the CICs provide address to local communities that might not have access through these traditional channels.
